

科学英語論文作成法 講演会のお知らせ

◆講師◆ Dr. Ulrich F.J. Mayer
(Mayer Scientific Editing &
University of Cambridge, UK)

◆演題◆ “How to Use English Effectively When Writing
Scientific Manuscripts in English”

◆日時◆ 2024年5月15日 (水)
16:00~17:30

◆場所◆ レクチャーシアター (西講義棟1, WL1-301)

The lecture will focus on the **most important practical aspects of writing a chemistry-related research paper**.

I will talk about the most important points regarding **title, abstract, main text, conclusions, and references**.

Within the section **main text**, I will expand a bit on **writing style**, i.e., from **general to specific**, from **simplicity to complexity**.

I will also cover when to best **use present tense, past tense, and present perfect**, as well as when it is advantageous to use the **active** or the **passive voice**.

It will discuss when to best use **use/utilize, which/that**, and **countable/uncountable nouns** (e.g., technology vs. technologies, reactivity vs. reactivities)

I will also talk about the most important points regarding writing a **cover letter** and a **cover letter in response to reviewer requests**.
